SDN BHD

more than
120
YEARS
BRAND

The roots of our company could be traced back to Goh Leng Soon who retained the family name of Goh and added the phrase "Ban Huat" to form the company's name, as he liked the auspiciousness of the Hokkien phrase that literally means "ten thousand wealth" or abundant fortune.

Our first product was the brown glazed ceramic cup that was used to collect latex from rubber trees. The ceramic cup was our sole product in its early years followed by nursery pots in the 1920s. Venturing in the sanitary sector in the early 20th century, **GBH** produces water closets and lavatories. In the 1980s, our product line expanded to offer full range of bathroom accessories.

Today, **GBH** is the reliable household name for bathroom products and we partake in most local mega projects be it Residential or Commercial. *

GBH, being the pioneer of many ceramic products in Malaysia, have been included in various Industry and Products Standards Promulgation Committees under the Sponsorship of SIRIM and had actively participated in every Committee dealings with Standards for ceramic bathroom products:
